

Allerion Oilfield Services Awarded Certificate of Recognition for Health & Safety Standards

EDMONTON, AB – October 31, 2011 - Allerion Oilfield Services Inc., Canada's leading aboveground storage tank (AST) expert, announced today that they have received the Certificate of Recognition (COR) from the Alberta Municipal Health and Safety Association validating their commitment to health and safety.

Allerion was awarded the Certificate of Recognition for meeting the Alberta Municipal Health and Safety Association's (AMHSA) established standards within its health and safety management system. Allerion was evaluated by a certified external auditor with respect to their management's commitment to health and safety, hazard identification and assessment, hazard control, worker competency and training, inspections, emergency response planning, incident investigation and system administration.

"We are very pleased to receive this certificate of recognition," says Jeff Heath, President and CEO, Allerion Oilfield Services. "Health and safety have always been our first priority and this certification confirms our fundamental commitment to keep our employees, customers, and communities safe by operating only at the highest standards of practice in our industry."

"Allerion achieved a score of 96% on the COR audit in Alberta," comments Chad Burke, Director of Health, Safety and Environment at Allerion Oilfield Services. "We are currently in the process of achieving COR equivalency for operations in Saskatchewan, Manitoba, Newfoundland, and New Brunswick."

AMHSA is a non-profit association that awards a Certificate of Recognition (COR) to employers who demonstrate they have stringent health and safety management systems in place.

About Allerion Oilfield Services Inc.

Allerion Oilfield Services is a global leader in innovative tank solutions in the aboveground storage tank industry. With roots dating back to the 1950s, this Canadian company provides innovative, proven technology and maintenance services for aboveground storage tanks used by refiners and transporters. Allerion offers leading tank cleaning services through operations in Guelph and Sarnia, Ontario, Saint John, New Brunswick and Edmonton, Alberta. They are the Canadian licensed service representative for the DS Jet Mixing System which is a globally-adopted product that has been specified as standard equipment on new and refurbished tanks at a number of pipeline and refining companies in North America and throughout Europe.
